EDUCATION

- **Motilal Nehru National Institute of Technology Allahabad, Prayagraj** 2022-26
B.tech in Electrical Engineering CGPA: 7.35, SPI : 8.37 till 7th sem
- **Vinyaas Public School** 2022
Board of Intermediate Education, UP Percentage: 87.8
- **Vinyaas Public School** 2020
Board of Secondary Education, UP Percentage: 91.6

EXPERIENCE

- **Advance training on semiconductor Fabrication and characterization (Government of India)** 2025
Centre for Nano Science and Engineering (CeNSE), Indian Institute of Science(IISc),Bengaluru 25 Oct- 4 Nov
– Training on semiconductor fabrication and characterization organized by GOI
– Fabricated the whole MOS capacitor from pure silicon wafer to end product
– characterization : Analysis of TEM, SEM, XRD, AFM,FIB, RAM, Probe station
– Fabrication- Clean room, Lithography, Wet etching , Oxidation, deposition of Al metal , Dry etching
– MOS Capacitor - Fabricated the whole process of MOS and analysed it's characteristics
- **Digital Design summer training (IIT Kanpur)** 2024
Programmed various digital electronics circuits and implemented them in Boolean board July
– Programmed the digital designed code using verilog HDL
– Tool and technology used : Verilog HDL , Vivado software.
– Output of Project: Counter , Adder , Subtractor, MUX etc had implemented on Boolean board .

PERSONAL PROJECTS

- **Speed control of DC motor** 2024
I had programmed on controlling the speed of motor)
* Tools & technologies used: Arduino and it's inbuilt programming
* We assembled the whole component and then using the Arduino we programmed and burnt into Arduino. On varying the data of speed we can controlled the speed of DC motor . It rotation and speed can be controlled .
- **State of charge estimation of Lithium Ion battery** 2025
using the machine learning algorithm we had estimated the SOC of Li-ion batteries
* Tools & technologies used: Jupyter notebook
* Algorithms : CNN, LSTM, GRU
* Using the algorithm we had find the error and better algorithm which is suitable for estimation.

TECHNICAL SKILLS AND INTERESTS

Languages: C++, Python

Developer Tools: MATLAB

Semiconductor Device Fabrication and Characterization

MOSFET and MEMS Device Physics

Soft Skills: Communication , Teamwork and problem solving

Design and MATLAB simulation

Areas of Interest: Fabrication of chip and MOS capacitor

POSITIONS OF RESPONSIBILITY

- **Position**, MNNIT Cultural club competition *Runner up*
- **Position**, Mentorship to the ASHA organization students *Present*

ACHIEVEMENTS

- **Achievement** Certification on Semiconductor in IISC Bangaulu *4th November 2025*
